DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Appeal Brief, filed 25 November 2008, with respect to the rejections of the claims under 35 U.S.C. § 103(a) have been fully considered and are persuasive. The rejections of the claims under 35 U.S.C. § 103(a) have been withdrawn.

Allowable Subject Matter

2. Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claim 1 recites tessellating and utilizing a color space for redundant color inks. The color space for the set of YMCK color inks and at least one additional color ink is divided into regions where the regions are arranged so as to minimize the range of luminance variation found within the regions. The resultant tessellated color space is then used to select the amounts of ink for each color ink in order to render an image. Examiner has not discovered in the prior art this particular method of selecting ink amount for printers having YMCK color inks and at least one additional color ink. The closest prior art discovered is the previously cited combination of Hirokazu (US-2001/0028471 A1) and Gondek (US-5,982,990). However, the combination of Hirokazu and Gondek fails to teach dividing a color space for the set of YMCK color inks and at least one additional color ink into regions where the regions are arranged so as to minimize the range of luminance variation found within the regions. Examiner has discovered no addition prior art which fully teaches claim 1, either in a single reference or by an obvious combination of references. Accordingly, claim 1 is deemed to be allowable.

Claims 2-7 depend from claim 1, either directly or indirectly. Thus, claims 2-7 are deemed allowable at least due to their respective dependencies from an allowable claim.

Independent claim 8 recites the features of claim 1 discussed above and is therefore also deemed allowable at least for the reasons set forth for claim 1.

Claims 9-12 depend from claim 8, either directly or indirectly. Thus, claims 9-12 are deemed allowable at least due to their respective dependencies from an allowable claim.

Independent claim 13 recites the features of claim 1 discussed above and is therefore also deemed allowable at least for the reasons set forth for claim 1.

Claims 14-16 depend from claim 13, either directly or indirectly. Thus, claims 14-16 are deemed allowable at least due to their respective dependencies from an allowable claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
